Summary

Enthusiastic software engineering student with a strong academic background and hands-on experience in developing mobile applications using Flutter. Proficient in UI/UX design with Figma, seeking to leverage my skills in a challenging software development role to contribute to innovative projects, with a foundational knowledge of machine learning to enhance app functionality.

Education

Jeddah University, College of Computer Science and Engineering

2022 - Present

Bachelor's degree in software engineering

GPA 4.99 / 5

Projects

Tadawa | تداوي

Oct 2024

A medication and appointment tracker mobile application built with Flutter and Firebase. Provides timely reminders to help users manage their medication schedules and appointments, promoting better health outcomes through improved adherence.

Air Quality Detection Car

Nov 2024

Developed an IoT-based air quality detection car using NodeMCU to monitor harmful gases, temperature, and humidity in hazardous areas. The system activates alerts when gas concentrations exceed 65 ppm and transmits data to Blynk and ThingSpeak, with automated email notifications via IFTTT.

Certifications

Machine Learning Specialization

Nov 2024

Coursera - Andrew Ng, DeepLearning.AI

UI/UX Product Designer in Figma

Jan 2025

Udemy - Zero to mastery

Technical Skills

- Programming Languages: Java, Dart, HTML/CSS, JavaScript, Python
- Flutter framework
- Tools: Git, GitHub, Firebase, Figma
- Agile/Scrum Methodologies
- Basic Knowledge of Machine Learning concepts

Soft Skills

- Problem Solving
- Leadership
- Teamwork
- Critical Thinking
- Time Management

Languages

Arabic – English
